

Technical Training for Stormwater Management Rule and BMP Manual

March 25-26, 2004

Rutgers EcoComplex - Florence, NJ

New Jersey's Stormwater Management Rules require fundamental changes in how we plan, design and implement systems and structures for managing stormwater runoff in New Jersey. In addition to new guidance for regional and municipal stormwater planning, the rules include new methods and calculations for calculating groundwater recharge, stormwater runoff and nutrient removal. For both designers of land use proposals and the public officials who review them, implementing the rules will require an understanding of both the municipal planning in the regulations as well as the technical standards required. This two-day seminar will explain both aspects of the rule.

WHO SHOULD ATTEND?

This course will be valuable to all professionals involved with planning, designing, review or building land use projects in New Jersey. This course presumes knowledge of basic hydrology and stormwater runoff computations.

PROGRAM TOPICS*

Stormwater Management Rules N.J.A.C. 7:8
New Jersey Stormwater Best Management Practices Manual
300-Foot Special Water Resource Protection Area
Computations for Groundwater Recharge and Stormwater Quality
Nonstructural Stormwater Management Strategies - Low Impact Development
Municipal Stormwater Management Plans
Maintenance Plans

** scheduled topics may be subject to change per the discretion of the NJDEP*

REGISTRATION INFORMATION

Phone: (Visa, MasterCard or American Express). Call our Registration Desk at (732) 932-9271, 8:00am-4:30pm, M-F.

Mail: Send check, money order or purchase order (payable to **Rutgers, The State University**) to: Registration Desk, Continuing Professional Education, Cook College, 102 Ryders Lane, New Brunswick, NJ 08901-8519

FAX: (732) 932-8726, 24 hours. Please fax a copy of check, money order or PO with fax registrations.

Internet: www.cookce.rutgers.edu (credit cards only)
